Happy Holidays TLC and CDC Friends and Partners:

As we reflect on 2023, we want to express our gratitude to you for your support of our educational programs. Our staff and teachers are proud to have achieved the following in 2023:

- The return of the Fairkids Field Trip program during the LA County Fair: we welcomed 17,000 participants.*
- Resumption of year-round farm field trips for K-12 schools in Los Angeles and San Bernardino Counties; we have now served over 700 participants for 2023.*
- Strengthening enrollment for our Career and Technical Education Center, serving 85 high school students during fall 2023.*
- Offering a high-quality early education program to more than 200 children at the Child Development Center.*

Even more exciting, this is a time to look forward and find moments of inspiration and drive for the future. As we plan for exceptional and much-needed programs for children, youth and students in 2024, we invite you to support TLC or CDC by donating in this season of giving during our year-end fundraising campaign. Give the gift of hope by donating today.

With your support, we will continue to serve the communities of Pomona and San Gabriel Valleys with year-round educational programming. Help us maintain the momentum into 2024 with an end-of-year donation by clicking below.

We greatly appreciate your partnership, and we wish you all a wonderful and happy New Year!

Roberto Viramontes
Executive Director
